# THE UNITED STATES OF AMERICA

TO ALL TO WHOM THESE PRESENTS SHALL COME:

NASH Research Foundation

Whereas, THERE HAS BEEN PRESENTED TO THE

Secretary of Agriculture

AN APPLICATION REQUESTING A CERTIFICATE OF PROTECTION FOR AN ALLEGED DISTINCT VARIETY OF SEXUALLY REPRODUCED, OR TUBER PROPAGATED PLANT, THE NAME AND DESCRIPTION OF WHICH ARE CONTAINED IN THE APPLICATION AND EXHIBITS, A COPY OF WHICH IS HEREUNTO ANNEXED, AND MADE A PART HEREOF, AND THE VARIOUS REQUIREMENTS OF LAW IN SUCH CASES MADE AND PROVIDED HAVE BEEN COMPLIED WITH, AND THE TITLE THERETO IS, FROM THE RECORDS OF THE PLANT VARIETY PROTECTION OFFICE, IN THE APPLICANT(S) INDICATED IN THE SAID COPY, AND WHEREAS, UPON DUE EXAMINATION MADE, THE SAID APPLICANT(S) IS (ARE) ADJUDGED TO BE ENTITLED TO A CERTIFICATE OF PLANT VARIETY PROTECTION UNDER THE LAW.

NOW, THEREFORE, THIS CERTIFICATE OF PLANT VARIETY PROTECTION IS TO GRANT UNTO THE SAID APPLICANT(S) AND THE SUCCESSORS, HEIRS OR ASSIGNS OF THE SAID APPLICANT(S) FOR THE TERM OF TWENTY YEARS FROM THE DATE OF THIS GRANT, SUBJECT TO THE PAYMENT OF THE REQUIRED FEES AND PERIODIC REPLENISHMENT OF VIABLE BASIC SEED OF THE VARIETY IN A PUBLIC REPOSITORY AS PROVIDED BY LAW, THE RIGHT TO EXCLUDE OTHERS FROM SELLING THE VARIETY, OR OFFERING IT FOR SALE, OR REPRODUCING IT, OR IMPORTING IT, OR EXPORTING IT, OR CONDITIONING IT FOR PROPAGATION, OR STOCKING IT FOR ANY OF THE ABOVE PURPOSE, OR USING IT IN PRODUCING A HYBRID OR DIFFERENT VARIETY THEREFROM, TO THE EXTENT PROVIDED BY THE PLANT VARIETY PROTECTION ACT. (84 STAT. 1542, AS AMENDED, 7 U.S.C. 2321 ET SEQ.)

WHEAT, COMMON

'Ransom'

In Testimony Whereof, I have hereunto set my hand and caused the seal of the Plant Variety Protection Office to be affixed at the City of Washington, D.C. this twelfth day of September, in the year two thousand one.

Attest:

*Paul M. Jankins*

Commissioner  
Plant Variety Protection Office  
Agricultural Marketing Service

*W. E. Ransom*  
Secretary of Agriculture

U.S. DEPARTMENT OF AGRICULTURE  
AGRICULTURAL MARKETING SERVICE  
SCIENCE AND TECHNOLOGY DIVISION - PLANT VARIETY PROTECTION OFFICE

## APPLICATION FOR PLANT VARIETY PROTECTION CERTIFICATE

(Instructions and information collection burden statement on reverse)

The following statements are made in accordance with the Privacy Act of 1974 (5 U.S.C. 552a) and the Paperwork Reduction Act (PRA) of 1995.

Application is required in order to determine if a plant variety protection certificate is to be issued (7 U.S.C. 2421). Information is held confidential until certificate is issued (7 U.S.C. 2426).

**EXHIBIT A – ORIGIN AND BREEDING HISTORY****'RANSOM'*****Selection Criteria:***

Pedigree: Seward/SD76705 (Centurk\*5/Hand)

1984: Final cross made; NDSU greenhouse

1985: F1 generation; NDSU greenhouse; all plants uniform

1986: F2 bulk population; NDSU research land; no selection applied; segregating for maturity, plant height, and disease resistance.

1987: F3 bulk population; NDSU research land; selected 100 random spikes; segregating for maturity, plant height, and disease resistance.

1988: F4 head row (F3-derived); NDSU research land; selected based on appropriate plant height, maturity, and grain yield; no segregation observed within the headrow.

1989: F5 Observation Nursery; NDSU research land; selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, and greenhouse-based seedling resistance to race TNMK of stem rust; no segregation observed within the single row.

1990: F6 Preliminary Yield Trial (tested as ND8955); NDSU research land; selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, milling and baking quality; no segregation noted.

1991: F7 Advanced Yield Trial, NDSU research land; selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, milling and baking quality; no segregation noted.

1992: ND HRW Variety Trial, NDSU research land, Northern Regional Performance Nursery; selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, milling and baking quality; segregation observed among 5 seedlings tested for reaction to stem rust race RTQ in greenhouse test.

1993: ND HRW Variety Trial, NDSU research land, Northern Regional Performance Nursery; selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, milling and baking quality; no segregation noted.

1994: ND HRW Variety Trial, NDSU research land, Northern Regional Performance Nursery; selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, milling and baking quality; segregation for head type and size, height, and leaf rust reaction observed in the field – 500 individual plants harvested for purposes of re-selection; segregation observed among 5 seedlings tested for reaction to stem rust races RTQ and QFB in greenhouse test.

1995: ND HRW Variety Trial, NDSU research land; selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, milling and baking quality; 83 plant-rows selected for purification based on uniformity of head size and type, plant height, and leaf rust reaction; segregation observed among 5 seedlings tested for reaction to stem rust races RTQ and TNMK in greenhouse test.

1996: ND HRW Variety Trial, NDSU research land; selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, milling and baking quality; 75 plant-rows bulk harvested and designated as ND8955-A based on uniformity of head size and type, plant height, and greenhouse stem rust reactions.

1997: ND HRW Variety Trial (ND8955 and ND8955-A, NDSU research land); selected based on appropriate plant height, maturity, field resistance to leaf and stem rust, grain protein content, test weight, grain yield, milling and baking quality; no segregation observed in ND8955-A.

1998: ND8955-A released as 'Ransom'.

***Evidence of Uniformity and Stability:***

Ransom has been observed to be both uniform and stable over four generations.

No variants have been observed in Ransom.

## EXHIBIT B. – NOVELTY STATEMENT

Ransom is most similar to Seward. Ransom differs from Seward in being resistant to race RTQ of stem rust, whereas Seward is susceptible.

Table 1. Reaction of the hard red winter wheat cultivars Ransom and Seward to seedling-stage inoculation four races of stem rust (*Puccinia graminis*).

| Cultivar | TNMK | Stem Rust Race   |     |     |
|----------|------|------------------|-----|-----|
|          |      | RTQ <sup>1</sup> | QSH | QCC |
| Ransom   | VR   | R                | S   | VR  |
| Seward   | VR   | S                | S   | VR  |

VR=very resistant; R=resistant; MR=moderately resistant; MS=moderately susceptible; S=susceptible.

<sup>1</sup> RTQ data was consistent in greenhouse seedlings inoculations conducted in 1991, 1992, 1993, 1994, 1995, 1996, and 1997. 1991-1995 data were based on the experimental line ND8955. 1996 and 1997 data were based on the selections out of ND8955 that were combined to form Ransom.

Tables 1 and 3 provide data from two trials comparing the reaction of Ransom and Seward to leaf rust shows a clear resistance advantage of Ransom over Seward. Tables 3, 4, and 5 provide data from three trials that compare plant height and heading date for both Ransom and Seward. Data from the three trials consistently show that Ransom heads four to five days before Seward. Data also show that Ransom is five to eight inches shorter than Seward.

Planted: September 10, 1999

Harvested: July 24, 2000

a - Mostly bacterial leaf disease; rated on flag leaf

Winter survival ratings are visual ratings taken in May. So though the winter was mild, final stands were affected by spring events such as soil drifting, late occurring alternate freezing and thawing cycles and etc. Thus the ratings this year may not be true winter hardiness ratings.

WHEAT (TRITICUM SPP.)

9900250

INSTRUCTIONS: See Reverse.

NAME OF APPLICANT(S)

NDSU Research Foundation

ADDRESS (Street and No. or R.F.D. No., City, State, and ZIP Code)

P.O. Box 5014  
Fargo, N.D. 58105-5014

FOR OFFICIAL USE ONLY

PVPO NUMBER

VARIETY NAME OR TEMPORARY DESIGNATION

Ransom (N08955)

Place the appropriate number that describes the varietal character of this variety in the boxes below.

Place a zero in first box (e.g., 0 8 9 or 0 9 ) when number is either 99 or less or 9 or less.

## 1. KIND:

1 = COMMON 2 = DURUM 3 = EMMER 4 = SPELT 5 = POLISH 6 = POULARD 7 = CLUB

## 2. TYPE:

1 = SPRING 2 = WINTER 3 = OTHER (Specify) 1 = SOFT 3 = OTHER (Specify)  
2 = HARD

1 = WHITE 2 = RED 3 = OTHER (Specify)

## 3. SEASON - NUMBER OF DAYS FROM EMERGENCE TO:

2 7 6 FIRST FLOWERING 2 8 1 LAST FLOWERING

## 4. MATURITY (50% Flowering):

NO. OF DAYS EARLIER THAN 1 = ARTHUR 2 = SCOUT 3 = CHRIS  
0 4 NO. OF DAYS LATER THAN 2 4 = LEMHI 5 = NUGAINES 6 = LEEDS

## 5. PLANT HEIGHT (From soil level to top of head):

7 9 CM. HIGH  
3 CM. TALLER THAN 2  
CM. SHORTER THAN 1 = ARTHUR 2 = SCOUT 3 = CHRIS  
4 = LEMHI 5 = NUGAINES 6 = LEEDS

## 6. PLANT COLOR AT BOOTING (See reverse):

2 1 = YELLOW GREEN 2 = GREEN 3 = BLUE GREEN

## 7. ANTHUR COLOR:

1 1 = YELLOW 2 = PURPLE

## 8. STEM:

1 Anthocyanin: 1 = ABSENT 2 = PRESENT 1 Waxy bloom: 1 = ABSENT 2 = PRESENT

1 Hairiness of last internode of rachis: 1 = ABSENT 2 = PRESENT

1 Internodes: 1 = HOLLOW 2 = SOLID

0 4 NO. OF NODES (Originating from node above ground)

2 8 CM. INTERNODE LENGTH BETWEEN FLAG LEAF AND LEAF BELOW

## 9. AURICLES:

1 Anthocyanin: 1 = ABSENT 2 = PRESENT 1 Hairiness: 1 = ABSENT 2 = PRESENT

## 10. LEAF:

2 Flag leaf at booting stage: 1 = ERECT 2 = RECURVED  
3 = OTHER (Specify):

2 Flag leaf: 1 = NOT TWISTED 2 = TWISTED

1 Hairs of first leaf sheath: 1 = ABSENT 2 = PRESENT

2 Waxy bloom of flag leaf sheath: 1 = ABSENT 2 = PRESENT

1 1 MM. LEAF WIDTH (First leaf below flag leaf)

2 0 CM. LEAF LENGTH (First leaf below flag leaf)

8. Does the applicant own all rights to the variety? Mark an "X" in appropriate block. If no, please explain.

☒ YES ☐ NO

9. Is the applicant (individual or company) a U.S. national or U.S. based company?  
If no, give name of country

☒ YES ☐ NO

10. Is the applicant the original owner? ☐ YES ☒ NO If no, please answer the following:

a. If original rights to variety were owned by individual(s), is (are) the original owner(s) a U.S. national(s)?

☒ YES ☐ NO If no, give name of country

b. If original rights to variety were owned by a company, is the original owner(s) a U.S. based company?

☒ YES ☐ NO If no, give name of country

11. Additional explanation on ownership (If needed, use reverse for extra space):  
See additional Exhibit and Statement of the Basis of the Applicant's Ownership included in the application.

## PLEASE NOTE:

Plant variety protection can be afforded only to owners (not licensees) who meet one of the following criteria:

1. If the rights to the variety are owned by the original breeder, that person must be a U.S. national, national of a UPOV member country, or national of a country which affords similar protection to nationals of the U.S. for the same genus and species.
2. If the rights to the variety are owned by the company which employed the original breeder(s), the company must be U.S. based, owned by nationals of a UPOV member country, or owned by nationals of a country which affords similar protection to nationals of the U.S. for the same genus and species.
3. If the applicant is an owner who is not the original owner, both the original owner and the applicant must meet one of the above criteria.

The original breeder/owner may be the individual or company who directed final breeding. See Section 41(a)(2) of the Plant Variety Protection Act for definition.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0581-0055. The time required to complete this information collection is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact the USDA Office of Communications at (202) 720-5881 (voice) or (202) 720-7808 (TDD).

To file a complaint, write the Secretary of Agriculture, U.S. Department of Agriculture, Washington, D.C. 20250, or call 1-800-245-6340 (voice) or (202) 720-1127 (TDD). USDA is an equal employment opportunity employer.

**EXHIBIT E – STATEMENT OF THE BASIS OF THE APPLICANT'S OWNERSHIP**

Dr. James A. Anderson, a former employee of the North Dakota Agricultural Experiment Station and North Dakota State University, is a plant breeder who developed 'Ransom' the hard red winter wheat cultivar for which Plant Variety Protection is hereby sought. The employee by agreement and because of the condition of the use of facilities and funds of the North Dakota Agricultural Experiment Station and North Dakota State University has assigned all ownership right to 'Ransom' hard red winter wheat to the North Dakota Agricultural Experiment Station and North Dakota State University.

North Dakota State University on behalf of the North Dakota Agricultural Experiment Station has assigned all ownership to the NDSU Research Foundation. The NDSU Research Foundation is a nonprofit corporation set up to own and manage the intellectual property of North Dakota State University.
